STATEMENT OF CPNI COMPLIANCE PROCEDURES

Horizon Mobile Communications, Inc. ("Horizon") has established and implemented the following internal policies and procedures to ensure compliance with the requirements of Section 222 of the Communications Act of 1934, as amended, and with Federal Communications Commission rules governing Customer Proprietary Network Information ("CPNI"), codified at 47 C.F.R. § 64.2001 *et seq.*

The following operating procedures are intended to ensure that Horizon complies with the CPNI Rules:

1. Horizon does not make available to any affiliated or unaffiliated entity information which meets the definition of CPNI set forth at 47 U.S.C. § 222(h)(1), except when required to do so by the law.
2. Horizon only uses CPNI to render, and bill for, the telecommunications services it provides to its customers. Horizon does not use its customers' CPNI for any marketing purpose, either internal or external, or any other purpose set forth in the CPNI Rules.
3. Horizon has established the following practices and procedures governing the disclosure of CPNI:
 - (a) Horizon does not disclose or release CPNI upon a customer's telephone request except under the following circumstances: (1) Horizon verifies the identity of the caller by return call to the telephone number of record in the customer's file; (2) Horizon sends the CPNI to the customer's address of record in the customer's file; or (3) for business customers, through the customer's dedicated account manager.
 - (b) Horizon automatically notifies customers (at the customer's original telephone number or address on file) in case any changes are made to the customer's primary account information.
 - (c) Horizon has implemented procedures to notify the required U.S. government agencies in the event of a breach of the CPNI rules and to provide the required notice to affected customers of any such breach.
4. Horizon provides comprehensive training on these practices and procedures to all relevant employees. Horizon has established a supervisory review process regarding compliance with the CPNI rules for outbound marketing situations. Horizon maintains records of carrier compliance for a minimum of one year.
5. Because Horizon does not use CPNI for any purpose and does not provide CPNI to other entities (except when compelled under the law to do so, or as requested to do so by customers), it has not implemented either "opt-in" or "opt-out" CPNI

approval procedures, *see* 47 C.F.R. § 64.2007, and it has not implemented the CPNI notification procedures, *see* C.F.R. § 64.2008.

6. In the event that Horizon in the future plans to utilize CPNI to provide CPNI to other entities other than as described above, it will first provide customers notification of their CPNI rights as required by 47 C.F.R. § 64.2008.
7. It is a violation of Horizon policies to disclose CPNI outside of Horizon. Any employee found to have violated this policy will be subject to disciplinary action up to and including termination.
8. Access to CPNI at Horizon is restricted to a limited number of employees and controlled through the use of active security and other measures, including the use of special passwords that are assigned on a limited basis and technological measures which prohibit the electronic reproduction or distribution of CPNI. Encryption and other security practices are utilized when CPNI is transmitted electronically.
9. Controls are in place involving responses to law enforcement agencies that serve Horizon with valid legal demands, such as a court ordered subpoena, for CPNI. Horizon will not supply CPNI to any law enforcement agency that does not produce a valid legal demand.
